

## Comments

Suggest: different colour text, click flag to begin

Send nav = easy to use, padlock or shield, enable unsafe scripts,

Overall: - Well done

likes the hovering icons

user testing - mobile

confusion page  $\Rightarrow$  loads well on non led plane,  
probs mobile ready menu, JSen data loads well  
on mobile

## User Text Notes

User was able to locate first menu item. User figured out subpage fly icon button. That it was translation?

able to use navigation correctly, can navigate JSen Data properly.

able to use hover icons on hoverworks, Says animations are too small, had to highlight text to see it, change colour where needed.

also is reading warning for unsafe scripts, ~~fixed~~ tried to fix problem but failed,

User needed prompt from me to fix unsafe scripts

User needed prompt to find lost icon
